AMENDMENTS TO THE DRAWINGS

Amendments to the Drawings:

The attached replacement drawing sheet makes changes to Fig. 10. In amended Figure 10, the brief description of the drawing originally included in the figure has been removed. As the examiner has not required it, a separate annotated (marked-up) sheet showing changes has not been provided.

Attachment: Replacement Sheet

Application No. 10/664,775

REMARKS

The Notice of Allowance dated March 10, 2005 included a statement that the objection to the drawings, which specifically objected to original Figure 10 for inclusion of a brief description of the drawing, was maintained. This information has been removed from the amended version of figure 10 submitted with this Rule 312 Amendment. The descriptive information has been, by the present amendment, moved to the "Brief Description of the Drawings" section of the specification, as suggested by the Office. These amendments are believed to overcome the maintained objection. No new matter has been added. As the amendments merely correct formal matters in the application, Applicants consider entry without any further substantive examination appropriate. The issue fee for this application is being concurrently submitted herewith.

In view of the above, it is respectfully submitted that the application is in condition for issue. Early action to that end is respectfully requested. The Commissioner is hereby authorized to charge any fees in connection with this application and to credit any overpayments to Deposit Account No. 14-1447. The Examiner is invited to contact the undersigned by telephone if there are any questions concerning this amendment or application.

Respectfully submitted,

Date: June 3, 2005
